

## ACS HIGH SCHOOL Program

Learn all you can while at ACS. Make use of every opportunity. Your parents have paid for a full day; use it. The goal is not graduation, but education. Study Hall is not generally an option. In the first two years of high school, focus on getting as many required courses (Core & Complement-ary) completed as possible. That gives room in the last two years to explore lots of Electives. Note: Not every course is offered every year, so plan carefully.

### Ninth Grade

1. Core
  - a. Bible
  - b. English
  - c. Algebra I
  - d. Biology/Physical Science (Physical Science offered '17-'18)
2. Complementary
